Annacis Water Supply Tunnel

Metro Vancouver is constructing a new water supply tunnel to help ensure the continued delivery of clean, safe drinking water to the region. In order to work efficiently and maintain the project schedule, our contractor will be extending the work hours at the north shaft site. You may experience some impacts that are similar to daytime work, including:

- Noise generated by construction equipment such as cranes, soil separators, and generators
- Light at the site to allow safe working conditions

Location: 11th Street, between Auckland Street and Royal Avenue, City of New Westminster

Date: Starting early May, 2023, and lasting approximately three months

Work hours: Monday to Friday, from 7:00 am to 11:00 pm; and Saturday, from 7:00 am to 9:00 pm

Crews will make efforts to reduce noise and other impacts wherever possible. All work will comply with the City of New Westminster bylaws and granted bylaw variances.

Please contact our community liaison if you have any questions about this work or project. Thank you for your patience as we continue constructing this essential drinking water infrastructure.
