I support the development of this project at the corner of 8th Street and 8th Avenue. The contribution of the project to housing diversity and the revitalization and retention of a historically significant home far outweighs the minor variances being requested. The parking variance in particular is not significant in view of the ample transit options around the property, the nearby shopping and services, and the measures being provided by the developer such as improvements to the nearby transit stop, and the compass cards and the car share memberships and prepaid driving time being provided to project residents.
