**Q1. Do you have any feedback on the proposed Zoning Bylaw amendment to rezone the property from M-1 (Light Industrial Districts) to RT-3A (Queensborough Townhouse Districts)? This change would allow future development of three-storey townhouse units on this site.**

Too low density is proposed. Mixed use building are needed in Queensborough, otherwise the community will become even more locked in car traffic. This is a typical example of the poorly planned suburban area.

**Q2. OPTIONAL: What is your connection to the proposed project?**

I live in the area but further than 3 blocks away

**Q3. What is your postal code?**

New Westminster, BC, Personal Information

# Project Report

Hi Hanna, thank you for providing this and allowing us the opportunity to respond. I appreciate the writer's response to wanting more density and a mix of uses in the neighbourhood. As you know we are rezoning in accordance with the OCP to RT-3A which permits townhome forms. What the writer may not be aware of is the future plans for Mercer High Street. We have just broken ground on our first phase of townhomes on the north side of Blackley Street and that development will include the requested mixed-use buildings along Mercer Street. Further, although we are still in the preliminary stages, we are looking at a future phase to include a larger mixed-use density format that will bring further retail opportunities to the neighbourhood. Stay tuned!

If you require anything further, please do not hesitate to let me know.

Thank you,

Kyle Shury : Principal
