Nighttime Work

Sewer Video Inspections

METRO VANCOUVER, in coordination with its contractor, **AquaCoustic Remote Technologies Inc.**, will be inspecting a sewer main in your neighbourhood.

To complete the above-mentioned work, a small crew and work vehicle may be on site between the hours of 10:00 p.m. to 6:00 a.m. from Jun 2 to , 2021.

During this period, workers will be videotaping the sewer interior between manholes. This process provides the contractor with a first-hand look at the deteriorating pipe conditions.

Videotaping must be carried out during the early morning hours when sewer flows are at their lowest. Please note that this work is highly weather dependant.

Associated activities are not expected to cause excessive noise or disturbance to area residents.

Your patience and understanding during this work is appreciated.
