# MESSAGE FROM THE MAYOR

On behalf of New Westminster City Council, I am proud to present the 2023 Annual Report.

2023 was a year of getting work done in the community. While we still face global economic uncertainty and challenges both regional and local, the City of New Westminster continued to show leadership and foresight on the issues that matter the most to our residents and businesses: housing, safety, resilience, and community belonging.

There is also increased awareness that none of these issues stand alone. As you read this report and see the work being done in different departments of the City, recognize the thread of connections that runs through them: resilience, safety, belonging. At a time of economic and climate disruption, these are not the responsibility of one department in the City, or even one order of government, but issues that require all of us to do our part and work in collaboration.

There can be no doubt, however, that housing is at the centre of these issues. Without a secure home, few can feel safe or connected to their community. I am especially proud of New Westminster's continued leadership on housing, not only in meeting and exceeding our Regional Growth Strategy goals for new housing, but

in extending renter protections so that the 45% of households in New Westminster that rent can also experience housing security. We continue to approve new Secured Market Rental, such as the 300+ new rental units being built at 810 Agnes Street, and supporting the first-ever investment in student housing at Douglas College. Overall, over 800 new residential units – new homes – were approved in 2023.

The homes we approve today will be the housing stock that takes us through the next few decades of energy transition. This is why we have developed a plan to move all new construction towards the highest levels of the Energy Step Code and Zero Carbon Step Code by 2027, the first step in achieving emission reduction targets set out in the Community Energy and Emissions Plan 2050. This is also why the public engagement for the 22nd Street Station Area Bold Vision is asking the community and subject matter experts what it looks like to transform that area into a low-traffic and climate-friendly neighbourhood where everyone can thrive.

The City is working across departments to address public safety. We hosted and supported 26 community outreach events to provide improved public safety information, including a Fire Hall Open House, Sky's No Limit, and the Youth Firefighter Program. We also made significant investments in firefighter training and updated the high-rise emergency response strategy. In response to climate change we launched the Accelerated Heat Plan to address the impacts of extreme heat on vulnerable

residents, which included identifying high-risk buildings housing vulnerable populations and introducing the One Cool Program in 126 buildings to provide a common room air conditioner to help those in need during a heat event.

City departments also worked together to design a coordinated and compassionate response to the overlapping three crises of homelessness, substance use, and mental health challenges. The value of the groundwork laid, and the regional collaboration fostered, will show results as this pilot program is rolled out in 2024, with a plan to measure that success through a third-party academic review.

From protecting trees and enhancing our urban forest to connecting neighbours through the Connect and Prepare Program and the Hey Neighbours Collective, there is a lot to be proud of in how New Westminster has worked together to build connection, to build resiliency, and to improve the safety and security of our community.

It is an honour to serve this engaged and progressive city, and I want to thank the many members of this community who do the multitude of things, small and large, every day, to protect what you love about New Westminster.

**PATRICK JOHNSTONE**  
Mayor

# MESSAGE FROM THE CAO

In 2023, we made incredible strides to foster a sense of community and promote a people-centered economy.

These achievements, driven by our unwavering commitment to building relationships and connecting with all members of our community, are a testament to our collective efforts and dedication.

One of our significant accomplishments last year was engaging more residents from under-represented groups, including renters, racialized groups, newcomers, and youth. By analyzing demographic data, we tailored our outreach to ensure feedback was more representative of our community. To this end, we also developed a new model for community engagement with the formation of the Community Advisory Assembly, a larger committee that aims to mirror our city's diverse demographic makeup. The hundreds of membership applications received underscores the community's eagerness to participate in shaping our future.

To cater to diverse demographics, we developed new arena-based programs and introduced a monthly all-body swim at Moody Park Outdoor Pool. Our library services extended support to newcomers and vulnerable residents through community librarian visits and home deliveries, making library resources accessible to all. We expanded Youth Services to include programs like Voices of India and Intergenerational BBQ, promoting inclusivity. Our heritage programs and exhibitions brought people together to share cultural meals and hear untold stories, enhancing our collective sense of belonging. The newly developed Aging in Place program provides seniors with resources to maintain autonomy, while the creation of the Scholarship Training Employment Program (S.T.E.P) offered free lifeguard training in exchange for an employment commitment, reflecting our people-centered approach.

Our commitment to Truth and Reconciliation continued through collaboration with local First Nations and partnerships with Indigenous organizations. As part of our declared Year of Truth, we launched a website and journal that reflects on the City's Indigenous relations to date, both positive and harmful. Staff continue to learn about Indigenous culture, values, and history in order to improve our reconciliation and engagement efforts, and we strive to help our community learn and understand by supporting Indigenous-centered events, such as National Indigenous Peoples Day and Red Dress Day.

Supporting local businesses remained a priority as we helped them launch sidewalk and on-street patios, and partnered with the various business associations to activate our commercial districts with large community events. Shine Bright took advantage of the newly revitalized Uptown Plaza, and the Waterfront Fun series in Westminster Pier Park was designed to enhance downtown livability and community engagement. Staff completed the City-Wide Retail Strategy, which offers vital recommendations to support a thriving retail sector, essential for our city's well-being. Our New Media Gallery partnered with eight local businesses to install environmental sensors, connecting them to the international environmental community.

These accomplishments exemplify our dedication to creating a community where residents and businesses alike can thrive. Thank you to our staff for their hard work, and our many community partners who helped make these achievements possible. We look forward to another year of growth and connection.

**LISA SPITALE**  
Chief Administrative Officer

# 2023-2026 Strategic Priorities Plan

Council's Strategic Priorities Plan serves as a guiding document identifying areas of focus that will be addressed during the 2023-2026 term. The five areas include:

## Community Belonging and Connecting

The social and cultural make-up of New Westminster has fundamentally changed and is more diverse now than ever before; the City aims to foster a community in which everyone feels they belong and has the opportunity to connect and contribute.

## Homes and Housing Options

The City is a recognized leader in housing, advancing housing options across all spectrums, from emergency shelters to market units. The City will intensify its focus on housing by making a bold commitment to be even more ambitious in how it tackles the ongoing housing crisis.

## People-Centered Economy

New Westminster's economy needs to serve its local community. To that end, the City works to create conditions that provide business opportunities and sustainable employment, and to build relationships that ensure quality jobs and enhanced livability for our community.

## Safe Movement of People

To make New Westminster safer, more equitable, and more accessible for all people, the City will continue to improve the transportation network with a focus on active transportation and public transit.

## Asset Management and Infrastructure

New Westminster needs resilient infrastructure to deliver core services that support the community's health, safety, and wellness needs today and into the future. The City is working to improve its asset management practices and decision-making through inter-departmental collaboration.

The Strategic Priorities Plan acts as the road map for steering the City's activities on behalf of the community and is grounded in contexts through which all work should be measured. These include reconciliation, public engagement, climate action and environment, and diversity, equity, inclusion, and anti-racism (DEIAR).

The proceeding pages highlight departmental achievements in 2023. Where applicable, those achievements that align with the strategic priorities have been identified with the following icons listed above.

2023-2026

# Strategic Priorities

Awarded the **2023 Gold Award for Excellence in Planning Practice** from the Planning Institute of British Columbia for the Community Action Network (CAN) Program, which increases the engagement of people with lived and living experience of homelessness, poverty, and other social challenges as subject matter experts that inform community outreach, planning and policy development.

## Climate Action, Planning and Development

The Climate Action, Planning and Development Department is responsible for advising Council on the orderly, efficient and aesthetic use of land in New Westminster as well as the physical, social and economic development of the City, which includes urban and regional planning, urban design, processing of rezoning applications, social planning, overseeing the heritage program, building and development, assigned strategic social and community issues, permits and licenses, and bylaw enforcement.

### Planning & Development

Approved three mixed-use development projects of note:

**808 Royal Ave:** a combined student housing and academic space development

**810 Agnes Street:** a multi-family high rise with over 300 secured market rental units, a commemorative community park, and indoor community space

**388 Duncan Street:** infill housing development that includes 14 retail units

Conducted public engagement for the 22nd Street Station Area Bold Vision, garnering valuable feedback that will help guide the City in transforming the area into a climate-friendly neighbourhood where everyone can thrive.

Made substantial progress on implementing the Homelessness Action Strategy through: the establishment of an Implementation Working Group; the development of an Annual Action Plan; raising awareness of and addressing the stigma associated with homelessness;

advancing prevention initiatives, such as funding a rent bank and hosting tenant workshops; and the establishment of an award that recognizes businesses that have had a positive impact on this issue.

Launched a two-year pilot project to address the three interrelated crises of homelessness, mental health, and substance use, focusing on addressing community concerns, providing immediate support to those experiencing homelessness and living with mental health

or substance use issues, and transitioning responsibility to senior levels of government.

Increased social wellbeing, community resilience, and emergency preparedness by facilitating improved social connections between neighbours in multi-residential buildings through the Connect and Prepare program, and through co-designed practice guides with the Hey Neighbours Collective.

## Planning & Development

Issued hundreds of building and plumbing permits to support a variety of new and renovated buildings, and approved over 800 new residential units.

Continued to streamline and improve the permit application processes; 95% of building permits are submitted electronically.

Tenant improvement permit processing times were increased; 25% processed in under three weeks, 35% in under eight weeks, and 30% in under fifteen weeks.

Continued working with property owners, developers, and other government agencies to successfully retain existing mature trees and plant new trees.

Increased child care spaces for all ages in Queensborough with the addition of a new City-owned facility at 490 Furness Street.

## Climate Action

Supported the installation of air conditioner units through the BC Hydro Energy Conservation Assistance Program and assisted residents with completing the application in their preferred language.

Delivered 10 multi-language workshops on how to read energy bills, reduce energy consumption, and lower GHG emissions.

Developed an implementation schedule for new construction to reach the highest levels of the Energy Step Code and Zero Carbon Step Code by 2027, the first step in achieving emission reduction targets set out in the Community Energy and Emissions Plan 2050.

Developed a two-option framework to support builders with constructing energy efficient and low-carbon emission homes.

Provided smart thermostat and heat pump top-up incentives, as well as post-upgrade energy evaluations for residents through Energy Save New West.

Provided subsidy for New Westminister-based building professionals to attend high-performance building courses at the British Columbia Institute of Technology.

## Integrated Services

Resolved or improved the situation for 872 community issues reported by residents and businesses.

Conducted wellness checks at 368 locations where activity by unhoused individuals was reported and offered support and services.

## Electric Utility

New Westminster Electric Utility, in partnership with the community, strives to enhance quality of life, support sustainable development, and protect the environment. Supporting the City's vision of being an innovative leader in the provision of service and a trusted partner with its customers, the utility maintains its commitment to being B.C.'s best electric utility.

Completed construction and energization of the new Queensborough Substation.

Installed the electrical distribution network to service the Queensborough community from the new Queensborough Substation.

Completed major duct bank installations on Boyd and Carnarvon Streets, which provides essential long-term protection for utility cables.

Continued work on the Advance Metering Infrastructure project in preparation for installation in 2024.

Expanded BridgeNet service to more civic facilities, businesses, and multi-family buildings.

Awarded the **2023 HUB Cycling Infrastructure Improvement Award** for the NWSS Cycling Connector project, in recognition of outstanding infrastructure that prioritizes the safety and comfort of cyclists of all ages and abilities while addressing crucial gaps in the regional cycling network.

## Engineering

Well-designed and engineered facilities, public spaces, and civil infrastructure are essential for a livable, thriving, and sustainable community. As such, investment is needed to maintain existing assets, support sustainable lifecycle costing, and uphold levels of service the community expects and deserves. Our work on this front is guided by the strong belief that public spaces are for everyone and their design should reflect our community's diversity and commitment to reconciliation.

Made significant advancement on the construction of təmasewítxw Aquatic and Community Centre.

Completed the Sewer Asset Management Plan, Flood Management Strategy, an updated Intersection Safety Study, and Facility Asset Management Plan, and updated the City's Freshet Response Plan and conducted training with staff to ensure preparedness.

Advanced work on the West End Sewer Separation, Watermain Replacement, and Green Infrastructure Initiation, and replaced the fuel tanks at the Engineering Operations Works Yard.

Completed the Agnes Greenway, a fully separated cycling connection to NWSS along Sixth Street, and made significant improvements to the Central Valley Greenway at Lower Hume Park.

Completed a significant dredging program and installed new mooring piles along the shoreline to improve the Quayside dock and Samson V mooring, and ensure continued operations of the Q to Q Ferry and the museum.

Updated zoning bylaw to support Active Transportation and Transportation Demand Management, and the Subdivision and Development Control Bylaw.

Completed safety improvements at 10th Avenue and Surrey Street, and new sidewalk and street lighting at Ninth Avenue and 21st Street.

## Fire and Rescue Services

New Westminster Fire and Rescue Services protects life, property, and the environment through effective emergency management, fire and life safety education, fire code enforcement inspections, and by responding to emergencies. In addition to fire suppression, rescue services and emergency medical services, other roles include working with our community emergency services partners, developing the youth firefighter program and providing community outreach.

### Fire Operations

Launched the 2023-2026 New Westminster Fire and Rescue Services Strategic Plan outlining the vision, mission, values, and strategic objectives.

Hosted and supported 26 community outreach events to provide public safety information and inspire diverse populations to consider a firefighting career. Events included the Fire Hall Open House, Sky's No Limit, and the Youth Firefighter Program.

Updated the high-rise emergency response strategy and operational guidelines in response to the increasing number and size of high-rises in New Westminster.

Increased firefighter preparedness, confidence, and safety through several new training programs, as well as direct on-the-ground experience attending wildfires in Kelowna.

### Emergency Management

Supported the implementation of the Connect and Prepare Program in three multi-family buildings to increase social connectedness and improve emergency and disaster preparedness.

Launched the Accelerated Heat Plan to address the impacts of extreme heat on vulnerable residents. Identified high-risk buildings housing

vulnerable populations and introduced the One Cool Program in 126 buildings, which provides a common room air conditioner to help those in need during a heat event.

Improved Emergency Support Services with technological enhancements to support evacuees during an emergency response and

implement the new online Evacuee Registration and Assistance Program.

Increased staff's preparedness for large-scale extreme emergencies by assisting at the West Kelowna Reception Centre as operational leaders and mentors, supporting over 10,000 wildfire evacuees.

## Human Resources & Information Technology

The mission of the Human Resources Department is to support and enhance the activities and employees of the City and to maintain the integrity, quality of service, and the value of labour. Information Technology Services supports the operations of the City of New Westminster through the strategic guidance and management of all City computer systems and IT assets.

### Human Resources

Negotiated renewals for collective agreements for the Canadian Union of Public Employees Local 387, International Association of Fire Fighters Local 256, and International Brotherhood of Electrical Workers Local 213.

Launched a new applicant tracking system to streamline part of the recruitment process including new hire documentation.

Continued implementation of a time entry self-service system to reduce paper use and increase accountability.

### Information Technology

Implemented multiple business intelligence dashboards for Fire and Rescue Services, Engineering, and Climate Action, Planning and Development departments to improve operational efficiency.

Launched a new intranet site, continuing the City's adoption of a hybrid cloud environment, which will greatly facilitate secure flexible work options, and commenced installation of the City's replacement Storage Area Network to ensure the continuation of seamless system and application availability.

Conducted a comprehensive external network vulnerability assessment to ensure security of the City's network.

Continued work on the Advance Metering Infrastructure project in preparation for installation in 2024

## Library

The New Westminster Public Library supports lifelong learning and literacy through print and digital collections, information assistance, and a wide range of programs for adults, teens and children. The library is committed to ensuring that New Westminster residents are connected to technology and digital information through free public internet stations, Wi-Fi, and an extensive collection of digital resources. In both our Uptown and Queensborough branches, the library provides a safe and welcoming space to read, study, plug-in, learn, and be part of the community.

Partnered with Family Place to improve management and access to their toy set collection by adding the collection into the public library's catalogue.

Introduced Exploration Kits, which are sensory story kits designed to allow those with learning disabilities to connect and engage with stories and reading.

Connected newcomers and vulnerable residents with a range of library services through community librarian visits to transition homes and non-profit organizations, and through home deliveries to those unable to visit the library.

Partnered with Immigrant Services Society of BC to offer English Conversation Circles, providing opportunities for over 1,200 newcomers to practice English and learn about Canadian culture.

Provided opportunities for those with a shared interest in the environment to connect via programming on topics such as sustainable gardening and climate action.

Awarded the **2023 Parks Excellence Award** from the British Columbia Recreation and Parks Association (BCRPA) for the Sixth Street Play Area at Westminster Pier Park, in recognition of its innovative design to support improved connectivity to the riverfront, an expanded play program, and opportunities for social connections.

## Parks and Recreation

Our mission is to create parks and recreational opportunities that nurture healthy individuals and families, strong and unique neighbourhoods, a vibrant city, and thriving economy. Through our services, we strive to create quality of life for all in New Westminster.

### Parks

Improved playgrounds at Westminster Pier Park, added a new play feature in the Victoria Hill neighbourhood, installed an outdoor fitness station at Moody Park, and rebuilt Moody Park outdoor multi-sport courts to support both tennis and pickleball.

Conducted dog park improvements per the People, Parks and Pups Strategy, which included improved lighting at the Moody Park off-leash area, improved drainage in Westburnco off-leash area, the addition of small/shy dog separation gates in both Moody Park and Queen's Park off-leash areas, and installed a dog parklet on the Agnes Street Greenway.

Improved efficiency of greenhouses #6 and #7 through the replacement of polyethylene side walls, roll up motors, and environmental controls and sensors to reduce the heating requirements and improve plant yields and health.

Improved ball control fencing at Queen's Park ball diamond #2 to enhance user experience and protect spectators and trees.

Launched the New Westminster Sports Field Status Update Program, which automatically notifies parents, coaches, and sport organizations on the status of the outdoor sport fields in order to reduce unnecessary travel when fields are closed due to unplayable conditions and/or weather.

Supported industry training and certifications for those staff who weren't able to complete profession requirements due to pandemic-related cancellations of training/certification programs.

## Recreation

Hosted the 2023 Canadian National Lacrosse Championship, a five game series for the Mann Cup.

Successfully relocated all Centennial Community Centre programs and services in anticipation of the facility closure, and hosted a farewell event for community to reminisce on their experiences at the facility.

Introduced the “Pathway to Success” into the Learn to Skate program’s infrastructure. This is a built-in ice track that enhances safe and effective practice.

Developed new arena-based dry-floor and ice programs for early years, girls only, home learners, and alternative schooling demographics.

Introduced a monthly swim for trans, gender diverse, and Two-Spirit individuals, friends, and family at Moody Park Outdoor Pool.

Celebrated different cultures through the Cultural Cuisine Series at City Hall’s Five-Eleven Bistro, a lunch event that offers employees and visitors the opportunity to eat cultural foods, often in alignment with important cultural or religious holidays.

Improved accessibility to programs through plain language naming conventions and descriptions, and created an age-based program and fee structure for recreation programs and services.

Expanded Youth Services to be more inclusive, with programs such as Voices of India, Cultural Collab, Braids and Barbers, Roots and Relationships, and Intergenerational BBQ.

Developed the Aging in Place program, which provides information and resources to enable seniors to have autonomy over their life choices.

Replaced the 2005 boiler at Queen’s Park Arena with a high efficiency hot water on demand system.

Coordinated the centralization of facility maintenance across all recreation facilities to achieve efficiencies and standardization of procurement and procedures with staff, supplies, tasks, etc.

Created the Scholarship Training Employment Program (S.T.E.P), a program to screen, hire and train lifeguard/instructor applicants at no cost to the candidate in exchange for a commitment to an employment term.

## Filming

Issued permits for 48 days of filming for independent films, short films, and commercials during the writer's and actor's strike (May to November 2023), supporting both the film industry and the local economy.

## Special Events

Hosted the Waterfront Fun series of events at Westminster Pier Park in August, in order to bring community to a park that has experienced downtown livability issues. This activation was supported by over eight community partners.

Partnered with Uptown Business Association on two summer activations at the new Uptown Plaza on Belmont Street.

Provided American Sign Language interpretation at the Remembrance Day ceremony to ensure inclusivity and accessibility.

## Volunteer Services

Developed a corporate volunteer services framework to support the delivery of volunteer services throughout the city.

## Police

The New Westminister Police Department provides a range of services including first-response, traffic enforcement, domestic violence response, forensic crime analysis, intelligence services, crime prevention, and victim services. Through the committed efforts of uniformed and civilian staff, along with volunteers and members of the Police Board, New Westminister remains a vibrant and safe community.

Answered questions from the public at 50 community events attended by the New Westminister Police Department Community Engagement Unit.

Partnered with community members and staff from across City departments on the Accessibility Committee.

Launched the Communications Operation Centre, a specially trained team of civilian staff that help residents with their non-emergency inquiries during day time hours. The Centre has resulted in a significant reduction in wait time for non-emergency assistance.

## Office of the CAO

The Chief Administrative Officer oversees all City departments, except Library and Police, and the City's corporate priorities. The Office of the CAO consists of the following divisions: Anvil Centre Conference Services, Art and Technology, Arts Services, Corporate Communications, Economic Development, Heritage Services, Indigenous Relations, Interdepartmental Relations, Legislative Services, and Public Engagement.

### Anvil Centre Conference Services

Booked a record number of event days—over 240 events total.

Provided quality service and amenities, ensuring satisfied clients who want to return; nearly three-quarters of event clients are repeats.

### Arts Services

Completed 10 new public art works, showcased the work of 30 local artists in the Community Art Gallery (curated by Arts New West through an ongoing programming partnership), and commissioned artist Rebecca Blair to create a temporary installation for the glass façade of Anvil Centre (in partnership with the regional Capture Photography Festival).

Presented Outside/In, a series of free performances in Anvil Theatre accompanied by outside activities at Hyack Square. The series featuring six professional national touring artists.

Launched a Mural Pilot Project for New Westminster; in collaboration with the Vancouver Mural Festival and The Purpose

Society, Indigenous artist Randall Bear Barnetson was commissioned for a mural in the Downtown neighbourhood.

Offered a range of performing arts experiences featuring music, dance, comedy and theatre, through direct programming, co-presentations, and rentals.

Offered over 200 registered art programs in the Anvil Centre studios and facilitated a range of low barrier, drop-in arts programs for the community throughout the year, including Family Day, Summer Family Fundays, Culture Crawl, and Sky Lantern Workshops.

Initiated the Irving House Artist in Residency Project; artists Janet Wang and Holly Schmidt worked on site and engaged with the community to develop multiple public art interventions in and around Irving House.

Initiated a major restoration project for the Centennial Totem Pole. Artist Lloyd Wadhams Jr., son of the original carver, was hired to repair and restore the pole, working in Queen's Park throughout the summer where he could interact with the community.

## Heritage Services

Focused on collecting, sharing and commemorating those elements of past and present that should be valued and carried through to the next generation; accepted a large donated collection of historic portraits from the 1940s to 1990s that filled a gap in the City's archival collections.

Offered heritage programs and exhibitions that brought people together to share cultural meals and learn about the experiences of people whose stories hadn't been shared yet.

Presented the Housing Values exhibition, which focused on how cultural values, economics, and history influence where and how people live. The exhibition and complementary programming challenged visitors to broaden their thinking about housing both historically and in the present, and helped them be more engaged in finding solutions to housing problems.

Partnered with the New Westminister Homelessness Coalition Society to lead a city walk to help people understand homelessness in our community from a historical perspective. Important sites and stories were profiled, including the voices of those with lived experience.

## Art and Technology

Conducted over 90 registered art and technology workshops for all ages; conducted creative technology workshops and/or educational exhibition tours for almost 80 schools and universities; and continued offering Tech Outreach programs at community centres.

Introduced several areas of special programming to connect with new communities: OpenLAB on Thursday nights, Intergenerational Programming at Century House, and a special Newcomers Program for Afghan Refugees.

Partnered with eight local businesses to install environmental sensors on their premises and connected these local businesses to the international environmental community through New Media Gallery exhibitions.

## Economic Development

Participated in regional working groups to ensure New Westminster representation for matters that have a local impact.

Continued delivery of the non-profit bursary program, which seeks to support capacity development for the sector within the local economy.

Completed the city-wide Retail Strategy, which identifies recommendations to support a healthy retail sector, vital to the well-being of the city and local neighbourhoods.

Completed substantive work on the Business License Bylaw, which will modernize the City's business licensing approach to better reflect the

current and evolving business environment.

Continued to support businesses in launching sidewalk and on-street patios.

Hosted a business education series of workshops, which provided free topical resources for local businesses and non-profits.

## Indigenous Relations

Declared March 2023 to March 2024 as A Year of Truth, demonstrating the City's commitment to truth-seeking and truth-telling about its colonial history. In conjunction, a Year of Truth website was launched ([yearoftruth.ca](http://yearoftruth.ca)), banners were installed across the city, and a journal titled *Truth Before Reconciliation: Our Journey* was released, providing a comprehensive look at the City's Indigenous relations activities up to 2023 and an acknowledgement of the harms caused by the City in both the near and distant past.

Installed the Every Child Matters crosswalk at the intersection of Columbia Street at Eighth Avenue, in partnership with the Spirit of the Children Society.

Continued engagement and relationship-building with local First Nations including, but not limited to, Kwantlen, Kwikwetlem, Musqueam, Qayqayt, Squamish, and Tsleil-Waututh.

Partnered with Indigenous organizations and committed to ongoing participation and contribution to Indigenous-centered events

such as National Indigenous Peoples Day, National Day for Truth and Reconciliation, Aboriginal Veterans Day, and Red Dress Day.

Hosted regular Medicine Wheel Workshops, weekly soup and bannock lunchtime gatherings (now called "tawâw"), and regular Reconciliation Working Group meetings to enable City staff and leadership to continue learning about Indigenous culture, values, and history, so as to improve reconciliation and Indigenous engagement efforts.

## Public Engagement

Built relationships and engaged with more residents from the most under-represented groups based on demographic analysis of Be Heard New West registered users, such as renters, racialized residents, newcomers, and youth.

Developed a new model for committee-style engagement: the Community Advisory Assembly

is a larger committee focused on deliberation and building consensus with a membership that mirrors the overall demographic makeup of New Westminster. Recruitment was conducted in the fall in preparation for January 2024 launch; over 200 residents applied to join.

Increased registered users on the Be Heard New West online engagement platform by over

700 and renewed focus on in-person public engagement opportunities, hosting over 20 in-person workshops, drop-in engagement events, and pop-ups for various projects throughout 2023.

Hosted four tours of City Hall for newcomers, youth, and other diverse community groups and residents.

# Seven Bold Steps

In response to the climate emergency, New Westminster City Council has endorsed Seven Bold Steps for Climate Action to guide the community towards a zero carbon future by 2050.

NEW WESTMINSTER

**STEP 01**

## Carbon-free Corporation

The City of New Westminster will reduce its overall carbon footprint and will strive to achieve net zero carbon emissions by 2030.

### Accomplishments

- Achieved a 24% reduction in corporate GHG emissions below the 2010 levels.
- Continued work on the pilot study on energy/emissions for facility boilers.
- Increased percentage of City-operated small equipment (blowers, trimmers, etc.) running on electrical power instead of gas to 60%.

**STEP 02**

## Car-Light Community

The City aims to accelerate the Master Transportation Plan targets to achieve 60% of all trips within the City being made by sustainable modes of transportation (walk, transit, bike, multi-occupant shared) by 2030.

### Accomplishments

- Completed the Agnes Greenway and NWSS Cycling Connector.
- Upgraded the Rotary Crosstown Greenway.
- Made significant safety improvements to the Central Valley Greenway at Lower Hume Park.
- Updated the zoning bylaw for bicycle and vehicle parking.
- Completed construction of a new sidewalk and installation of new street lighting on Ninth Ave and 21st Street in Connaught Heights.

**STEP 03**

## Carbon-Free Homes and Buildings

Community carbon emissions for all homes and buildings will be reduced significantly. By 2030, all new and replacement heating and hot water systems will be zero-emission.

### Accomplishments

- Supported residents with multilingual services to complete energy retrofit incentive program applications.
- Delivered energy and emissions reductions programs for residents through Energy Save New West.
- Delivered homeowner webinars on energy conservation and emission reduction incentive programs available through the Province, utilities, and the City.
- Enhanced energy and technical code-related training for local builders.
- Supported energy-efficient construction by working with local builders, designers, and companies.
- Supported local builders to construct high-performance homes via Energy Save New West.

**STEP 04**

## Pollution-Free Vehicles

By 2030, 50% of kilometers drive by New Westminster registered vehicle owners will be by zero emissions vehicles.

### Accomplishments

- Operated and maintained publicly accessible EV chargers.
- Provided support for residential EV Charger rebate programs.

**STEP 05**

## Carbon-Free Energy

The City of New Westminster will invest in a small electrical grid in order to accommodate the required rapid conversion to building and vehicle electrification.

### Accomplishments

- Completed construction of the new Queensborough substation.
- Progressed work on Advanced Metering Infrastructure (AMI); implementation is scheduled for 2024.
- Continued repairs and replacement of aging infrastructure.
- Expanded electrical infrastructure in the Queensborough neighbourhood to connect with the new substation.

**STEP 06**

## Robust Urban Forest

New Westminster’s Urban Forest Canopy cover will be increased to 27% by 2030 to support the removal of 4,050 tonnes of carbon pollution every year and increase our forest’s carbon storage capacity by 50%.

### Accomplishments

- Continued implementation of the Urban Forest Management Strategy by planting almost 600 new trees.
- Involved the community in caring for the City’s trees through the Adopt-A-Street Tree program.
- Collaborated with Metro Vancouver to support tree protection and preservation of newly planted and established trees.
- Continued interdepartmental collaboration to improve the resiliency and health of the urban forest by enforcing tree permit requirements for all City projects.

**STEP 07**

## Quality People-Centered Public Realm

A minimum of 10% of today’s street space that currently only serves motor vehicles, excluding transit, will be reallocated for sustainable transportation or public gathering by 2030. The natural environment will be integrated with the public realm.

### Accomplishments

- Completed construction of the permanent Agnes Greenway, including seating areas, a dog parklet, and a misting station.
- Completed the full closure of Belmont Street and the temporary plaza design in preparation for constructing the permanent Uptown Plaza; the new plaza hosted nine activations in 2023.
- Installed 13 misting stations for public cooling during extreme heat. Locations include streets, plazas, and near bus stops.
- Advanced the planning and design for the westward expansion of Westminster Pier Park, and future commemorative park at 824 Agnes Street.
