

Appendix B

Notification to Residents

NOTICE OF NIGHT PAVING

All Roads Construction Ltd. will be completing Surface Paving on East Columbia from Keary to Sherbrooke. Paving will take approximately 4 working days between the dates of Oct 9 to Oct 30, between the hours of 800pm to 700am. At All Roads Construction Ltd., we strongly believe that keeping you informed is the key to good public relations and a safe work site. In advance, we thank you for your cooperation.

During the paving process our forces will have active paving equipment and vehicles moving throughout the site. We will have a representative of our group contact you should your property be affected. The noise from paving activities will be kept to the minimum possible levels, but please note that back-up beepers are a requirement from WCB and are mandatory on all equipment.

Please take into consideration:

- If you have any special occasions, large deliveries, or business functions planned, please let us know in advance so that we can accommodate your needs to the best of our abilities.
- Please do not park vehicles within the construction area or outside your property lines during working hours.
- Please use all due care and attention when driving through the work site.

Our intentions will be to:

- Keep you well informed of our progress and any disruptions that may occur in advance.
- Give you maximum notice should it be necessary to restrict access.
- Contact you directly to inform you of any specific concerns prior to starting the work.
- Do our very best to minimize the inconvenience to you.

All Roads Construction Ltd. anticipates the completion of another successful project and thanks you for your cooperation. Should you have any questions or concerns regarding this project, please feel free to contact me on my cell phone **604-786-0782**.

Sincerely,

All Roads Construction Ltd.

Kyle Blakeborough
Project Superintendent.
