*Proposed City Council Resolution
Supporting an Application to the Federation
of Canadian Municipalities' Local
Leadership for Climate Adaptation Initiative
to Support the Development of a Climate
Change Adaptation and Resilience Plan.*

Proposed City Council Resolution Supporting an Application to the Federation of Canadian Municipalities' Local Leadership for Climate Adaptation Initiative to Support the Development of a Climate Change Adaptation and Resilience Plan.

WHEREAS British Columbia continues to face unprecedented climate events such as the 2021 heat dome and flooding during atmospheric river events, which disproportionately affect vulnerable populations in New Westminster.

AND WHEREAS a key action identified in New Westminster's Community Energy and Emissions Plan (CEEP 2050) is to develop an adaptation strategy that outlines principles and actions to mitigate climate related risks and build climate resilience, emphasizing natural capital and opportunities for ecological benefits.

AND BE IT THEREFORE RESOLVED that City of New Westminster Council directs staff to apply for a funding opportunity from the Federation of Canadian Municipalities' Local Leadership for Climate Adaptation initiative to support the development of a Climate Change Adaptation and Resilience Plan.
