### Annacis Water Supply Tunnel

Metro Vancouver is constructing a new water supply tunnel to help ensure the continued delivery of high-quality drinking water to the communities south of the Fraser River. Once the tunnel has been constructed, we will need to remove the tunnel boring machine. Due to extended tunnelling work, the machine is now expected to arrive this summer.

When the machine arrives, our contractor will need to work longer hours to complete removal safely and efficiently. You may experience the following impacts during this work:

- Noise generated by construction equipment, including cranes and generators
- Light at the site to allow safe working conditions

**Location:** 11th Street, between Auckland Street and Royal Avenue, New Westminster

**Date:** Starting mid-July 2025 and lasting approximately one month

**Work Hours:** Monday to Friday, from 7:00 am to 3:00 am; and Saturday, from 9:00 am to 12:00 am

Crews will make efforts to reduce impacts wherever possible. All work will comply with City of New Westminster bylaws and granted variances. Please contact our community liaison if you have any questions about this work.
