The Seniors Community Connector (SCC) works with adults aged 50 and older who are referred by healthcare professionals, community partners, or who self-refer. 2026-28 United Way BC Healthy Aging Learning & Evaluation (L&E) Plan

Funded agencies and their partners play a key role in helping United Way BC Healthy Aging continuously improve our programs. Our Learning & Evaluation (L&E) activities will continue to evolve in response to what we learn from this process.

Support for, and participation in L&E, is an **expected deliverable**¹ for funded agencies. Participating in L&E activities, like training webinars, learning forums, and Communities of Practice (COPs) are valuable sources of support, inspiration, and knowledge. Expectations for agencies are described in this document, as well as resources and supports for L&E activities. Updated versions of these documents will be shared as they evolve.

What is Learning & Evaluation for United Way BC Healthy Aging Grants?

Learning & Evaluation (L&E) is described as proving need, and improving services – that is, understanding what works well and what could be improved so that we can increase the impact of programs.

In collaboration with the Healthy Aging Learning & Evaluation Advisory Committee², United Way BC has identified five key attributes that guide our work across Healthy Aging Programs:

| Key Attributes for Learning & Evaluation | |
|--|---|
| <p>1. Program Standards & Progress Assessing adherence to program guidelines as well as funded agencies' interpretation of what is working well and what can be improved.</p> | <p>2. Accessibility/Availability Ensuring programming is accessible to priority populations.</p> |
| <p>3. Participant Satisfaction Feedback from participants regarding their satisfaction with programming offered.</p> | <p>4. Impact Measuring if, how, and to what extent the model achieves is intended outcomes.</p> |

¹ United Way BC understands that from time-to-time, circumstances beyond your control may prohibit your organization's participation in L&E activities. We will work with agencies to best support extenuating circumstances.

² The Healthy Aging Learning & Evaluation Advisory Committee includes Healthy Aging Leadership Council Members and United Way BC Healthy Aging staff. As of April 1st, 2026, the Committee consists of five Leadership Council members and 4 United Way BC staff.

5. Professional and Sector Development

Supporting the CBSS sector to improve and mature through capacity building and knowledge sharing.

United Way BC will continue to adopt a ‘learning systems approach’ to learning, evaluation, and quality assurance. We aim to create a safe space in which identifying and addressing areas for improvement is not seen as a failure, but as a learning opportunity or way we can improve. Learning systems share similarities with the [Developmental Evaluation](#) approaches that are currently adopted by many organizations in the CBSS sector.

Learning, reflecting, and sharing knowledge support program development and quality improvement. United Way BC is pleased to continue to provide learning opportunities and support community engagement activities to help programs, service providers and United Way BC make services relevant and effective.

L&E activities will support funded agencies, United Way BC, and other partners to:

- Track and describe progress, results, and impacts.
- Inform planning, program development, and quality improvements.
- Reflect, learn and adapt strategies to improve program design and service delivery.
- Build the capacity of funded agencies to serve priority populations and deliver programming effectively.
- Develop knowledge and learn from each other, as well as implement Communities of Practice (COPs).
- Ensure and demonstrate accountability for use of public funding dollars.

Expectations: Learning & Evaluation Activities

All funded agencies will participate in certain learning and quality assurance activities. Tools, training, and resources enable local program staff and service providers (volunteers, contractors, etc.) to run efficient, effective programs and provide high quality services that help seniors remain independent and connected to their communities. Funded programs will participate in the following:

1. Impact Evaluation

United Way BC is required to evaluate the impact of the Healthy Aging programs through a multi-year evaluation to be completed by 2030. Evaluation findings will be shared with the Ministry of Health and will inform United Way BC’s ongoing learning

and quality assurance processes that support Healthy Aging programs. All programs are required to participate in activities that support evaluation.

Required evaluation activities may include, but are not limited to:

- Collecting and sharing participant data through intake, screening, surveys, interviews, and/or other modalities.
- Collecting and sharing agency data through surveys, interviews, site visits, gatherings, and/or other modalities.
- Completing quarterly and annual outcome reports in a timely manner, ensuring the submission of accurate, high-quality data.

Please note that if agencies are considering participating in other research or evaluation beyond what is planned for in this Agreement (outside of local program satisfaction and evaluation activities), we ask that the grantee contacts United Way BC prior to making commitments.

2. Reporting

All programs are required to submit Quarterly and Annual Outcome Reports.

Please visit your [program group in CORE BC](#) for detailed information on reporting requirements, including up-to-date reporting templates. Key reporting dates and deadlines are outlined in the table below.

| Reporting and Granting Requirements | Deadline | Period |
|-------------------------------------|-------------------------|--------------------------------|
| 2026-27 Quarterly Report 1 | July 31, 2026 | April 1 – June 30, 2026 |
| 2026-27 Quarterly Report 2 | October 30, 2026 | July 1 – September 30, 2026 |
| 2026-27 Quarterly Report 3 | January 29, 2027 | October 1 – December 31, 2026 |
| 2026-27 Final Outcome Report | May 7, 2027 | April 1, 2026 – March 31, 2027 |
| 2027-28 Quarterly Report 1 | July 30, 2027 | April 1 – June 30, 2027 |
| 2027-28 Quarterly Report 2 | October 29, 2027 | July 1 – September 30, 2027 |
| 2027-28 Quarterly Report 3 | January 31, 2028 | October 1 – December 31, 2027 |
| 2027-28 Final Outcome Report | May 5, 2028 | April 1, 2027 – March 31, 2028 |

Data collection will be completed by funded agencies at the individual level as participants register with the program, and on an ongoing basis as participants receive services. Participant level tracking may be more detailed for some programs,

depending on the complexity and requirements of the grant.

Funded agencies will be supported to collect the above information through the creation of data collection tools which may include surveys, screening tools, focus group questions, etc.

3. Targets and Performance Benchmarks

Performance benchmarks and associated targets will serve as guidance in establishing new programs, and support long-standing programs to find efficiencies, demonstrate accountability for use of funds, and measure progress over time.

2026-28 Healthy Aging program renewal forms included pre-filled benchmarks for services individualized for each agency based on the observed efficiency of funded agencies with similar programs. These benchmarks are informed by factors including but not limited to granting stream, geographic service area (including rurality), and funding level and source to ensure that agencies set targets that are achievable and "right sized" for communities.

Over the course of the funding period, data will be monitored quarterly, and benchmarks will be updated accordingly and shared with agencies. Healthy Aging Specialists and Managers will support agencies to submit high-quality data and work towards meeting targets without compromising program quality or impact.

4. Priority Populations Screening

Programs that are required to screen (as per the Priority Populations Screening Toolkit found in your respective [grant group\(s\) in Healthy Aging CORE BC](#)) are expected to screen all new and existing participants beginning April 1st, 2026. Agencies are required to track priority population categories for each participant and report total numbers by category for both new and existing participants to United Way BC quarterly. All participants (new and existing) must be re-screened for priority populations on an annual basis.

5. Check-in(s) and Site Visits

Check-in(s) and site visits by regional Healthy Aging Specialists will occur at a minimum annually and possibly more regularly as time and capacity allows. During site visits, Healthy Aging Specialists will visit the agency, converse with staff, observe programming, and provide support as needed. Programs can request additional visits if desired. Check-ins will occur virtually, where possible.

6. Healthy Aging Summit 2026

All programs are expected to fully participate in the Healthy Aging Summit 2026. The Summit will take place in October 2026, both in person in Richmond, B.C. and

online. At least one representative from each program is required to attend, preferably in person.

7. Communities of Practice (COPs)

All programs are expected to participate in regular Community(ies) of Practice (COPs) (monthly, quarterly, etc.) in person and/or virtually. COPs are, “*groups of people who share a concern or a passion for something they do and learn how to do it better as they interact regularly*” ([Wenger, et al., 2015](#)). They support and promote sharing knowledge and learning from each other, mutual problem solving, and community partnership building for participating staff and programs. COPs also offer a venue for the professional development of coordinators, and collaborative program- and sector-oriented projects.

8. Provincial and/or Regional Consultations/Gatherings

All programs are expected to participate in Provincial and/or Regional Consultations/Gatherings. Consultations/Gatherings are an important opportunity to engage in community partnership-building activities, share knowledge, and learn from one another’s successes and challenges. They are a collaborative effort involving United Way BC Healthy Aging, funded agencies, as well as diverse leaders from across the Community-Based Seniors' Services (CBSS) sector.

9. Data Collection and Outcome Reporting Training Sessions

Training sessions are available for local program staff about specific data collection and reporting, including training in quality data collection, demonstration of available tools, forms, and resources, and online reporting training (i.e., how to submit and download applications and outcome reports) by United Way BC staff, as needed.

10. Orientation Sessions

Initial and ongoing orientation sessions for local program staff (online/in person) may be provided by United Way BC staff, as needed.

11. Other United Way BC Training and Learning Opportunities

Other learning opportunities may be organized by United Way BC as the program evolves. We will listen to input/suggestions for additional training and learning opportunities from funded agencies and will revisit previously compiled interest areas to build the training/capacity development plan. These may include co-creation sessions, webinars, etc.

12. Collaboration

Collaboration is one of the Guiding Principles (see [Healthy Aging Theory of Change](#)) of Healthy Aging's Program & Service Design; and thus, all United Way BC Healthy Aging funded agencies are strongly encouraged to work in collaboration with one

another, other CBSS organizations, varying levels of government, and the health care system.

Healthy Aging Community Collaboratives ("Collaboratives") are strategic networks that work together to ensure collective activities are making a positive impact on seniors in a given community. Healthy Aging Community Collaboratives identify gaps in seniors' services and opportunities, leverage local expertise and resources for seniors in the community, and jointly determine use of grant funds. Collaboratives are comprised of various members in the community, and should include municipal representatives, Regional Districts, the Health Authority, members of the CBSS sector (including other Healthy Aging funded programs in the community), and non-United Way BC funded agencies that support older adults.

To learn more about the benefits and expectations of collaboration, please watch the recording of Healthy Aging's Program & Service Design Information Session: [\[Recording\] Information Session: 2025-26 United Way BC Healthy Aging's Program Offerings, Including Enhancement Grants on Healthy Aging CORE BC.](#)

Resources for Learning & Evaluation Activities

The following resources will support the implementation of L&E activities:

1. **Healthy Aging Framework & Theory of Change**

All Healthy Aging programs should be familiar with United Way BC's Healthy Aging Framework and Healthy Aging Theory of Change (TOC), which is a visual representation of the relationship between the work Healthy Aging programs and their partners are doing and the positive changes that are expected to result, as demonstrated by recent research and evidence. To learn more about the Healthy Aging Framework and Theory of Change, please watch this information session recording: [\[Resource\] Healthy Aging Framework and Theory of Change - Healthy Aging CORE BC](#).

2. **Priority Populations Screening Toolkit**

The Priority Populations Screening Toolkit (found in your respective [grant group\(s\) in Healthy Aging CORE BC](#)) supports funded agencies in confidently screening participants for the four Healthy Aging priority populations. It provides required screening tools, training, and resources to help agencies screen participants and track priority populations. Additional resources, including a FAQ document and information session recording, can be found on Healthy Aging CORE BC.

3. **Program Handbooks & Guides**

Program handbooks or guides have been created to support each program. It is recommended that funded agencies review these documents at regular intervals. Some programs may also have online, self-paced learning modules.

4. **Healthy Aging CORE BC**

[Healthy Aging CORE BC](#) (Collaborative Online Resources & Education) is a provincially coordinated, interactive on-line platform designed to foster communication, coordination, sector cohesion, capacity building, collective impact, and other collaborative efforts among community-based seniors' service (CBSS) agencies and stakeholders. CORE BC was developed because of extensive research and consultations aimed at addressing the lack of recognition of the value of CBSS programs in the broader community and by government, and the need to build capacity of the sector to address the growing needs of an aging population. Funded agencies are encouraged to access relevant resources and participate in training and development opportunities on CORE BC, including [closed groups](#) where relevant information is available and [discussion forums](#) are hosted

5. **Closed Groups on Healthy Aging CORE BC**

Closed and private learning groups on [Healthy Aging CORE BC](#) are used to support provincial COPs in an online format, and will enable access to relevant resources, facilitate ongoing learning, and help staff make connections. United Way BC staff monitor these groups regularly and provide support by responding to questions, posting resources etc. Agencies' participation in the group's activities will ensure relevant resources can be accessed.

6. Discussion Forums

All funded agencies are encouraged to participate in the discussion forums on [Healthy Aging CORE BC](#). Discussion forums support and promote knowledge sharing and learning and mutual problem solving. **Note:** *The grantee must be both a member of Healthy Aging CORE BC and the respective closed group(s) to access this information.*

Summary of Key Updates to United Way British Columbia's 2026/28 Letter of Agreement

We've made a few important updates to the Letter of Agreement for the 2026/27 fiscal year. Below is a clear overview of what has changed and how these updates may affect your organization. If you have any questions or concerns, please feel free to reach out to your program manager.

1. Acknowledgment of Government Funding Partners (Page 3 under Section II.11)

Grantees are required to acknowledge both United Way BC (UWBC) and participating government funding partners in any public-facing communication about funded initiatives. This includes websites, social media, brochures, press releases, and similar materials.

Public materials must follow expanded co-branding requirements to ensure proper acknowledgment. A link to [UWBC's media toolkit](#) has been added for support, and additional guidance is included in Schedule A.

2. Return of Unspent Grant Funds or Purchased Assets (Page 5 under Section IV.27.b)

If the agreement is terminated for any reason, Grantees may be required to return any pre-purchased near-cash items (e.g., gift cards, vouchers) or capital equipment (e.g., laptops) acquired by grant funding.

In addition to unspent funds, this clause now includes near-cash items and capital equipment. This will require strengthened accountability for budget tracking, documentation, and how grant dollars and assets are used.

3. Updated Insurance Requirements (Page 6 under Section V)

Organizations must maintain adequate insurance coverage, including commercial general liability and, where relevant, third-party liability for funded program activities. UWBC may request to be added as an additional insured, and proof of insurance must be provided upon request.

4. Distribution Schedule Payables Date (Page 10 under Schedule B)

The Payable Dates noted under Schedule B are subject to shift and may be adjusted to align with United Way BC's payables schedule.

5. Explicit Audit Right (Page 11 under Schedule C – 30)

Please note that this clause now contains: UWBC may review or audit these records at its request.

6. Participant Data Sharing and Privacy Standards (Page 14 under Schedule C – 43.g)

UWBC may request participant-level data, either personal or de-identified, to meet obligations to funders or comply with legal requirements. UWBC will only request what is necessary and will prefer aggregated or de-identified information whenever possible.

Grantees may need to review and update their data collection, consent forms, or privacy practices to ensure compliance.

7. Updates to Definitions in Schedule D (Page 15 under Schedule D)

We are updating Schedule D (Definitions of the Agreement) to add three new defined terms: Effective Date, Execution Date, and Top Up. These additions are intended to clarify when the Agreement and any amendments take legal effect, distinguish between the date of signing and the date obligations begin, and clearly define a one-time, non-recurring additional funding allocation.
