Transportation Context

Transportation Context

Both Nanaimo and Fourteenth Street are classified as local roads. The rear lane also serves properties on Sixth Ave, a collector road, and is undersized at only 2.44 m (8 ft.) wide. The sidewalk network surrounding the site is complete, including an accessible curb letdown at the intersection. The Seventh Avenue Greenway is one block away. Transit service is proximate, as shown in the table below:

Table 1: Site Proximity to Transit Service

Transit Facility	Frequency	Distance
Bus Service #105 / 155	Approximately 20 minutes	76 m. (250 ft.) to the bus stop located at Sixth Ave frequent transit network (FTN)
Bus Service #112	Approximately 15 minutes	275 m. (902 ft.) to the bus stop located at Sixth Ave frequent transit network (FTN)
