Re: Heritage Revitalization Agreement for 228 Second Street

Dear Mr. Gill,

Please find attached the public feedback for H.H. and Jane Mackenzie House. The public consultation feedback includes the individual survey for the sixty nine responses we received, the reports generated from survey monkey, and the virtual open house which had approximately 5 people call in to the discussions with the panel which included Kirsten Sutton, James Garbutt, Elana Zysblat and Hardev Gill.

Public consultation survey feedback summary*:

1. Overall project support just under 85%.
2. The average support for the 5 variances requested was 79.11%
3. The heritage preservation and creation of more housing options were the best received items
4. Good heritage preservation that also allows for increased density
5. There were concerns about the greenspace, driveway design and densification

Public consultation virtual open house feedback summary**:

1. There was positive feedback for the project at the open house
2. The design was in keeping with the neighbourhood and has a good restoration plan
3. Considered by some to be one of the better requests in a long time in keeping with the HCA goals
4. Concerns about the amount of green space, the manoeuvrability of the driveway as well as the construction materials for the driveway were discussed and addressed
5. The number of trees being kept was well received as it would not affect the existing streetscape very much
6. In general, some were concerned about the need to maintain the existing greenspace in Queens Park and New Westminster.

Project response to Public Feedback:

We appreciated all the feedback we received from the public and feel much the feedback was positive. Once the driveway study is complete we will determine if any changes are to be made to the proposed project.

We look forward to working through this process with the city. Please let me know if you have any questions or concerns.

to: kirsten sutton <kirsten@d3design.ca>, Britney Dack <bdack@newwestcity.ca>

(I am Ccing Britney because I guess I am old school and in my mind she remains the heritage contact for everything heritage in NW. Please pass this email on to the correct contacts.)

Hi Kirsten:

I am following up from Saturday morning's Open House.

The 10 am start time coincided with my babysitting gig with the grandkids and trying to connect with a travel booking agent (took more than 2 hours to do so!) Chaos and confusion reigned that morning in our household.

While I did miss bits and pieces of the presentation/open house I did catch ^{Personal Information Removed} retelling of her early days in the hood. I particularly liked when she talked of her various houses esp. ^{Personal Information Removed} Regina which was spared demolition through an HRA and moved to Burr Street in the Brown ^{Personal Information Removed} and others who were also born in the city have a lot of history that should be recorded and saved for historians.

IN any case my feelings about this project is that it was submitted in time to be considered before the HRA is "refreshed" in the HCA. It has to be reviewed based on the "rules of the day." So with that in mind, this proposal saves a house which will be nicely **rehabilitated in situ** and adds an infill house that will be located where an **existing garage stood**. On paper, this project—perhaps more so than other proposed HRAs-- is closest in keeping with the history of HRA's noble intentions in New Westminster. Retain an old house and do minimal harm.

The style and size of the modifications to the current house as well as the style and size of the new build can be debated at another time. That is not my mission this morning.

Yes, what is being proposed may be within the limits of what is allowed but there is a difference between what you can do and what you should do. ^{Personal Information Removed} poke to the global and long-term effects of the erosion of green space.

I was on the CHC when this property (and another) came forward for demolition at the April 2016 meeting. Just as the HCA discussions were beginning.

(I was in shock for months about the demolition. My husband and I had always talked about what could be done to bring back that cool house. On a great lot.)

Fast forward to 2021. This simple yet charming Victorian gem **is still here to live another day.**

Fingers crossed that the H.H. and Jane Mackenzie house will enhance the streetscape of Second Street and be a beacon of heritage hope.

Thanks,

Personal Information Removed

PS. Why H.H. and Jane Mackenzie... and not Hugh H. and Jane Mackenzie house? Not being picky. Just curious.

Cc: Britney Dack <bdack@newwestcity.ca>, Hardev Gill <hgill@newwestcity.ca>

Hi ^{Personal Information Removed}Sorry for not replying earlier. We are closing our office at the end of next week for the holiday break, ^{Personal Information Removed}

Thank you for taking the time to write this thoughtful email. I agree with you about ^{Personal Information Removed} call-in. It was great to hear about the history of the spot. I am glad to hear that you feel the proposed rehabilitation HH and Jane Mackenzie house are nice and that positioning the infill where the former garage was is a good idea. I also recognize what ^{Personal Information Removed} addressed, and there needs to be a balance.

I will ask ^{Personal Information Removed} to explain the decision of the HH vs. Hugh H. and get back to you.

Like you, I hope this project is a beacon of "Heritage hope." We have a wonderful city with a lot of history, and finding solutions that will preserve those gems I hope can win for all! Britney has forwarded your email to Hardev to ensure that your email is used as council considers this project.

Cheers,

Kirsten

HH & Jane Mackenzie House has received a new message.

Email
Personal Information Removed

Message
Your mail out and website are awful. The mail out mentions the wrong address of the project as 238 2nd Street and the map on the mail out show the lot to be along Royal Avenue. Nice cut and paste. Lazy.

Your website lists both 238 and 328 2nd Street as the addresses.

Shoddy work starting with the mailout means shoddy work on this property. If I was the owner (who I am familiar with) I'd lose it over your unprofessional, lazy work. Hard no on this project because it's too confusing to bother to figure out what you're trying to do.

| <input type="checkbox"/> Other (please specify) | |

3. In general, do you support Heritage revitalization projects where the home will be substantially restored?

Yes, but only that, no subdividing

4. In general, do you like the proposed infill house design?

*No, 3 families on a one small lot. is to much!
this neighborhood is "single" family*

5. How do you feel about the requested variances?

I strongly do not support

I somewhat do not support

I am indifferent

I somewhat support

I strongly support

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot

H.H. & Jane Mackenzie House- Floor Space Ratio (FSR) variance request. Though the square footage is only increasing by 153 SF (placed in the rear of the second story- to improve three bedroom-up design), the reduction in lot size requires a variance (79% requested vs. 70% allowed)

H.H. & Jane Mackenzie House- The two required off-street parking spots are proposed on the new panhandle lot. Therefore, a variance is needed for off-site access for those two spots.

Proposed infill- Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance.

6. Do you support this project?

Yes

No

Let us know why?

7. Are you a resident of New Westminster?

Yes

No

8. Do you live in the Queens Park Neighbourhood?

Yes

No

9. Please provide your contact information. Please note that this information will be kept confidential.

H.H. & Jane Mackenzie Heritage Revitalization Agreement

1. Tell us what you like about the project

Heritage preservation

Location *as is*

Creating more housing options

Nothing

Design *within reason*

Other (please specify)

2. Tell us what you don't like about the project

Heritage preservation

Location

Creating more housing options

Nothing

Design

Other (please specify)

Subdividing the lot # 7!

This is a single family zoned neighbourhood.

You are proposing 3 families to live here one now does + over looking property as well as 3 others.

Personal Information Removed

3. In general, do you support Heritage revitalization projects where the home will be substantially restored?

** / There's 4 future sales right here.*

Yes but only that - no further extensions or other suites or homes + no subdividing.

4. In general, do you like the proposed infill house design?

*NO! NOT AT ALL.
IT WILL DESTROY THE PRIVACY OF THE 4 HOMES WHICH BORDER THE PROPERTY AS WELL AS BE A FIRE HAZARD*

+ Flood hazard as water travels downhill

5. How do you feel about the requested variances?

	I strongly do not support	I somewhat do not support	I am indifferent	I somewhat support	I strongly support
H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
H.H. & Jane Mackenzie House- Floor Space Ratio (FSR) variance request. Though the square footage is only increasing by 153 SF (placed in the rear of the second story- to improve three bedroom-up design), the reduction in lot size requires a variance (79% requested vs. 70% allowed)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

I strongly do not support

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot

I strongly do not support

H.H. & Jane Mackenzie House- Floor Space Ratio (FSR) variance request. Though the square footage is only increasing by 153 SF (placed in the rear of the second story- to improve three bedroom-up design), the reduction in lot size requires a variance (79% requested vs. 70% allowed)

I strongly do not support

H.H. & Jane Mackenzie House- The two required off-street parking spots are proposed on the new panhandle lot. Therefore, a variance is needed for off-site access for those two spots.

I strongly do not support

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance.

I strongly do not support

Q6

Do you support this project?

No,

Let us know why?:

This plan damages the neighbourhood. The zoning is for one house. The heritage revitalization agreement shouldn't be manipulated to allow builders to build two houses where there should only be one.

Q7

Are you a resident of New Westminster?

Yes

Q8

Do you live in the Queens Park Neighbourhood?

Yes

Q9

Please provide your contact information. Please note that this information will be kept confidential.

Q1 **Heritage preservation**

Tell us what you like about the project

Q2 **Other (please specify):**

Tell us what you don't like about the project

Concern regarding the increase to the FSR to 79%. The main house is already at 70%.

Q3
In general, do you support Heritage revitalization projects where the home will be substantially restored?

☆ **5**

Q4
In general, do you like the proposed infill house design?

☆ **5**

Q5

How do you feel about the requested variances?

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill

I somewhat support

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot

I am indifferent

H.H. & Jane Mackenzie House- Floor Space Ratio (FSR) variance request. Though the square footage is only increasing by 153 SF (placed in the rear of the second story- to improve three bedroom-up design), the reduction in lot size requires a variance (79% requested vs. 70% allowed)

I somewhat do not support

H.H. & Jane Mackenzie House- The two required off-street parking spots are proposed on the new panhandle lot. Therefore, a variance is needed for off-site access for those two spots.

I somewhat support

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance.

I somewhat support

Q1 **Nothing**

Tell us what you like about the project

Q2 Other (please specify):

Tell us what you don't like about the project

I am completely against increasing the density in my neighborhood. this is a completely unnecessary project. My neighbor loses his backyard privacy, and I am opposed to all lot splitting in the neighborhood. If the owners can't afford to renovate the front of the house, sell it to somebody who can.

Q3
In general, do you support Heritage revitalization projects where the home will be substantially restored?

☆ **1**

Q4
In general, do you like the proposed infill house design?

☆ **1**

Q5

How do you feel about the requested variances?

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill

I strongly do not support

Q6

Do you support this project?

Yes,
Let us know why?:
Restoring a beautiful heritage home while also increasing residential density in a desirable neighbourhood is a win/win. It's so much easier to just tear old homes down and rebuild. It's important New West keeps it's history alive.

Q7

Are you a resident of New Westminster?

Yes

Q8

Do you live in the Queens Park Neighbourhood?

No

I strongly do not support

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance.

I strongly do not support

Q6

Do you support this project?

No,

Let us know why?:

Public hearings are necessary and legally required. I am losing confidence in council as they do not listen. They just go through the required steps. I have no confidence in them as they have premeditated decisions. None of them will be getting my vote.

Q7

Are you a resident of New Westminster?

Yes

Q8

Do you live in the Queens Park Neighbourhood?

Yes

Q9

Q6

Do you support this project?

Yes,
Let us know why?:
Preserves heritage home through HRA which is superior to the HCA. It also adds badly needed density and lower cost housing.

Q7

Are you a resident of New Westminister?

Yes

Q8

Do you live in the Queens Park Neighbourhood?

Yes

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot

I am indifferent

H.H. & Jane Mackenzie House- Floor Space Ratio (FSR) variance request. Though the square footage is only increasing by 153 SF (placed in the rear of the second story- to improve three bedroom-up design), the reduction in lot size requires a variance (79% requested vs. 70% allowed)

I somewhat support

H.H. & Jane Mackenzie House- The two required off-street parking spots are proposed on the new panhandle lot. Therefore, a variance is needed for off-site access for those two spots.

I somewhat support

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance.

I am indifferent

Q6

Do you support this project?

Yes,
Let us know why?:
Preservation combined with more housing

Q7

Are you a resident of New Westminister?

Yes

Q8

Do you live in the Queens Park Neighbourhood?

Yes

Q9

Please provide your contact information. Please note that this information will be kept confidential.

Page 1

Q1 Creating more housing options

Tell us what you like about the project

Q2 Other (please specify):

Tell us what you don't like about the project

I don't like that a new, family-sized home (with suite) couldn't be permitted to begin with. It would preserved more green space. I don't like that most of the land is developed, but I'll accept it as a necessity to fit the municipal guidelines.

Q3 In general, do you support Heritage revitalization projects where the home will be substantially restored?

☆ 5

Q4 In general, do you like the proposed infill house design?

☆ 5

Q5

How do you feel about the requested variances?

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill **I strongly support**

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot **I strongly support**

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance. **I strongly support**

Q6

Do you support this project?

Yes,
Let us know why?:
It's the best way (under guidelines I don't support) to make the current structure desirable, add housing, and make it economically viable. I think economics don't matter much to the City but economic viability is how we actually add and improve housing.

Q7

Are you a resident of New Westminster?

Yes

Q8

Do you live in the Queens Park Neighbourhood?

Yes

Page 1

Q1

Tell us what you like about the project

Heritage preservation,
Creating more housing options,
Design,
Location,

Other (please specify):
 Looks fantastic. It's thoughtful and obviously the builder/owner is working hard at their own expense to create something g that is allowed within the HRA.

Q2

Tell us what you don't like about the project

Nothing,
 Other (please specify):
 I support the application in full.

Q3

In general, do you support Heritage revitalization projects where the home will be substantially restored?

☆ 3

Q4

In general, do you like the proposed infill house design?

☆ 5

Q5

How do you feel about the requested variances?

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill **I strongly support**

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot **I strongly support**

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance. **I strongly support**

Q6

Do you support this project?

Yes,
Let us know why?:
HRA has hurt a lot of homeowners. Let's support those that have come forward to work with HRA and the many restrictions at their own increased expense and care about the neighbourhood.

Q7

Are you a resident of New Westminster?

Yes

Q8

Do you live in the Queens Park Neighbourhood?

Yes

Page 1

Q1

Tell us what you like about the project

Heritage preservation,
Creating more housing options,
Design,

Other (please specify):

What feels right about this project is that it preserves the heritage home and feel that New West is aiming to achieve, while allowing for additional housing availability in the area. Something I like about the design of the additional home is the backset of it to not take away from the heritage aesthetic of the street front.

Q2

Tell us what you don't like about the project

Nothing

Q3

In general, do you support Heritage revitalization projects where the home will be substantially restored?

☆ 5

Q4

In general, do you like the proposed infill house design?

Q5

How do you feel about the requested variances?

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill **I am indifferent**

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot **I am indifferent**

H.H. & Jane Mackenzie House- Floor Space Ratio (FSR) variance request. Though the square footage is only increasing by 153 SF (placed in the rear of the second story- to improve three bedroom-up design), the reduction in lot size requires a variance (79% requested vs. 70% allowed) **I strongly support**

H.H. & Jane Mackenzie House- The two required off-street parking spots are proposed on the new panhandle lot. Therefore, a variance is needed for off-site access for those two spots. **I strongly support**

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance. **I strongly support**

Q6

Yes

Do you support this project?

Q7

No

Are you a resident of New Westminster?

Q8

No

Do you live in the Queens Park Neighbourhood?

Q9

☆ **3**

Q4
 In general, do you like the proposed infill house design?

☆ **5**

Q5

How do you feel about the requested variances?

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill **I strongly support**

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot **I strongly support**

H.H. & Jane Mackenzie House- Floor Space Ratio (FSR) variance request. Though the square footage is only increasing by 153 SF (placed in the rear of the second story- to improve three bedroom-up design), the reduction in lot size requires a variance (79% requested vs. 70% allowed) **I strongly support**

H.H. & Jane Mackenzie House- The two required off-street parking spots are proposed on the new panhandle lot. Therefore, a variance is needed for off-site access for those two spots. **I strongly support**

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance. **I strongly support**

Q6

Do you support this project?

Yes,
Let us know why?:
New west needs more density. Projects like this are a great balance of preserving the character but also creating more homes for young families. The city should be pushing and requiring more projects like this instead of turning them away!

Q7

Are you a resident of New Westminster?

Yes

Q8

Do you live in the Queens Park Neighbourhood?

Yes

Q9

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance. **I strongly support**

Q6

Do you support this project?

Yes,
Let us know why?:
This is fantastic! The city of New Westminster needs this and more of this. I moved out of New Westminster because of affordability and this project (and projects like this) will give young people the opportunity to stay.

Q7

Are you a resident of New Westminster?

No

Q8

Do you live in the Queens Park Neighbourhood?

No

Q1 **Heritage preservation,**
 Tell us what you like about the project **Creating more housing options,**
Design,
Location

Q2 **Nothing**
 Tell us what you don't like about the project

Q3
 In general, do you support Heritage revitalization projects where the home will be substantially restored?

☆ **5**

Q4
 In general, do you like the proposed infill house design?

☆ **5**

Q5

How do you feel about the requested variances?

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill **I strongly support**

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot **I strongly support**

H.H. & Jane Mackenzie House- Floor Space Ratio (FSR) variance request. Though the square footage is only increasing by 153 SF (placed in the rear of the second story- to improve three bedroom-up design), the reduction in lot size requires a variance (79% requested vs. 70% allowed) **I strongly support**

H.H. & Jane Mackenzie House- The two required off-street parking spots are proposed on the new panhandle lot. Therefore, a variance is needed for off-site access for those two spots. **I strongly support**

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance. **I strongly support**

Q6

Yes

Do you support this project?

Q7

No

Are you a resident of New Westminister?

Q8

No

Do you live in the Queens Park Neighbourhood?

Q9

Please provide your contact information. Please note that this information will be kept confidential.

Page 1

Q1
 Tell us what you like about the project

**Heritage preservation,
 Creating more housing options,
 Design**

Q2
 Tell us what you don't like about the project

Nothing,
 Other (please specify):
 I love that you plan to restore that house, it's a great shape. City of New West, please consider relaxing some your your strict heritage guidelines to allow for some modern homebuilding techniques like adding rainscreens and flashing. We've learned a lot about building in the 100+ years since this house was first built.

Q3
 In general, do you support Heritage revitalization projects where the home will be substantially restored?

☆ **5**

Q4
 In general, do you like the proposed infill house design?

☆ **5**

Q5

How do you feel about the requested variances?

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill

I strongly do not support

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot

I strongly do not support

H.H. & Jane Mackenzie House- Floor Space Ratio (FSR) variance request. Though the square footage is only increasing by 153 SF (placed in the rear of the second story- to improve three bedroom-up design), the reduction in lot size requires a variance (79% requested vs. 70% allowed)

I strongly do not support

H.H. & Jane Mackenzie House- The two required off-street parking spots are proposed on the new panhandle lot. Therefore, a variance is needed for off-site access for those two spots.

I strongly do not support

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance.

I strongly do not support

Q6

Do you support this project?

Yes,

Let us know why?:

HRA great way to preserve some heritage but also increase density. The current house is an eyesore, restoring it will add value to the area. It also sits on a giant lot so great idea to put another home in the back.

Q7

Are you a resident of New Westminster?

Yes

Q8

Do you live in the Queens Park Neighbourhood?

No

Q1 **Heritage preservation, Creating more housing options**
 Tell us what you like about the project

Q2 **Other (please specify):**
 Tell us what you don't like about the project
 There is a lot of hardscaping required for the driveway and parking. My own personal preference would be for less onsite parking if that could soften up the hardscaping. Certainly not a deal breaker or major concern.

Q3
 In general, do you support Heritage revitalization projects where the home will be substantially restored?

☆ **5**

Q4
 In general, do you like the proposed infill house design?

☆ **5**

Q5

How do you feel about the requested variances?

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill **I strongly support**

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance. **I strongly support**

Q6

Do you support this project?

Yes,
Let us know why?:
A quality heritage project that also includes family friendly infill housing while staying well within floor space entitlements already established by the HCA. Projects like this are no-brainers that should be in the fast lane!

Q7

Are you a resident of New Westminster?

Yes

Q8

Q1 **Design**

Tell us what you like about the project

Q2 **Nothing**

Tell us what you don't like about the project

Q3
In general, do you support Heritage revitalization projects where the home will be substantially restored?

☆ **5**

Q4
In general, do you like the proposed infill house design?

☆ **5**

Q5

How do you feel about the requested variances?

H.H. & Jane Mackenzie House- will remain in situ, but the lot size will need a variance to accommodate the proposed infill **I strongly support**

H.H. & Jane Mackenzie House- Rear setback to the building and porch projection will need to be relaxed to enable the heritage asset to remain in its existing position on the lot **I strongly support**

H.H. & Jane Mackenzie House- Floor Space Ratio (FSR) variance request. Though the square footage is only increasing by 153 SF (placed in the rear of the second story- to improve three bedroom-up design), the reduction in lot size requires a variance (79% requested vs. 70% allowed) **I strongly support**

H.H. & Jane Mackenzie House- The two required off-street parking spots are proposed on the new panhandle lot. Therefore, a variance is needed for off-site access for those two spots. **I strongly support**

Proposed infill-Due to the panhandle shape of the proposed infill lot, the frontage width requires a variance. **I strongly support**

Q6

Yes

Do you support this project?

Q7

Yes

Are you a resident of New Westminster?

Q8

Yes

Do you live in the Queens Park Neighbourhood?

Q9
