Hi there. I am against the proposed rezoning application. This is because the child care centre would most likely be breaking the quietness of the neighborhood. Moreover, the 13th Street would probably be pilling up with heavy traffics during school hours. Which contradicts with the traffic control island that had been set up at 13th st & Kingston st. Nonetheless, there are seniors and people with Disabilities living in this particular neighborhood which I don't think they would like to have their front yard parking spots be taken by the parents from the child care centre. Last but not least, the child centre should be located near major traffic area for easy access and overall city zoning planning, instead of now, putting it within a neighborhood zone and causing unwanted traffics coming in and out of the street, breaking the original quietness which the neighborhood has been used to. This is totally unacceptable.

This is a no no for sure. My family and I has been living in this neighborhood for 20+ years. It has been a quiet and safe area to live in. But now ?? Proposed a child care centre ? This is totally unacceptable ! The heavy traffic, the unwanted people coming in and out the neighborhood, who will the the responsibilities if crime and accidents happen ? Plus, we have elders and disabilities in our house hold and far as I know, my adjacent family also have elders in their home too. We need front yard parking spots 24/7

for easy access and emergency needs. Now this child care centre is asking for 3 more parking spots on the street ?? This is non-sense.... this rezoning proposal is unnecessary and it has no contribution to our neighborhood at all other than making it noisier and packed with traffics.....just because the centre wants to make profit so we, whom been living in this are has to suffer the consequences it brings ?? We all pay taxes equally and fairly. Why putting a childcare centre inside a quiet neighborhood area instead of putting it at major traffic area for easy access like the others ? Please highly reconsider this rezoning proposal as the people of this neighborhood are strongly disagree having it. Regards

1. We need more childcare since it is a key factor in reducing poverty. 2. I currently live across the street from a daycare and attest to it being a positive influence in the community.
